I-Corps at NIH – A Phase I SBIR Supplement

FOA – [PAR-22-073](#)

Notice with FY 24 dates – NOT-OD-23-188

Application Deadline (Cohort 2): Wednesday, January 31st, 2024
5 PM your local time

More information: <https://seed.nih.gov/I-Corps-at-NIH>

Contact Email: icorps@mail.nih.gov

What is I-Corps at NIH?

- Entrepreneurial Immersion Course for NIH and CDC funded small businesses
- Attendee teams conduct 100 customer discovery interviews over the period of 8 weeks to create a business model canvass for their NIH/CDC funded technology.

Outcome Goals for I-Corps at NIH

- Goal 1 – To increase team’s knowledge and understanding of the market opportunities. This is achieved through interviews with customers.
- Goal 2 - To move the teams towards further funding success. Funding may be through non-federal - state or equity based fundings or additional federal fundings.

How will I-Corps at NIH help attendees?

Program for SBIR/STTR Phase I awardees to help:

- Define the value proposition (e.g., clinical utility) early before spending millions – saves time AND money
- Assess IP and regulatory risk before design and build
- Better understand core customers and the specific steps required for downstream commercialization
- Gather information essential to customer partnerships/ collaborations/ purchases before doing the science
- Identify financing vehicles before they are needed (helping to avoid the “Valley of Death”)

Eligibility

- Active Phase I SBIR/STTR Grant from participating ICs of NIH and CDC
- Phase I component of the Fast Track awards
- Only one supplement application per parent SBIR/STTR Phase I award is allowed under this FOA
- Phase I contractors with I-Corps at NIH option (must apply via acquisition offices to modify the existing contract)
- No Cost Extensions to maintain the eligibility (Only certain ICs)
- Phase II, Direct-To-Phase II, Phase II component of Fast Track grant are not eligible.

Program Requirements

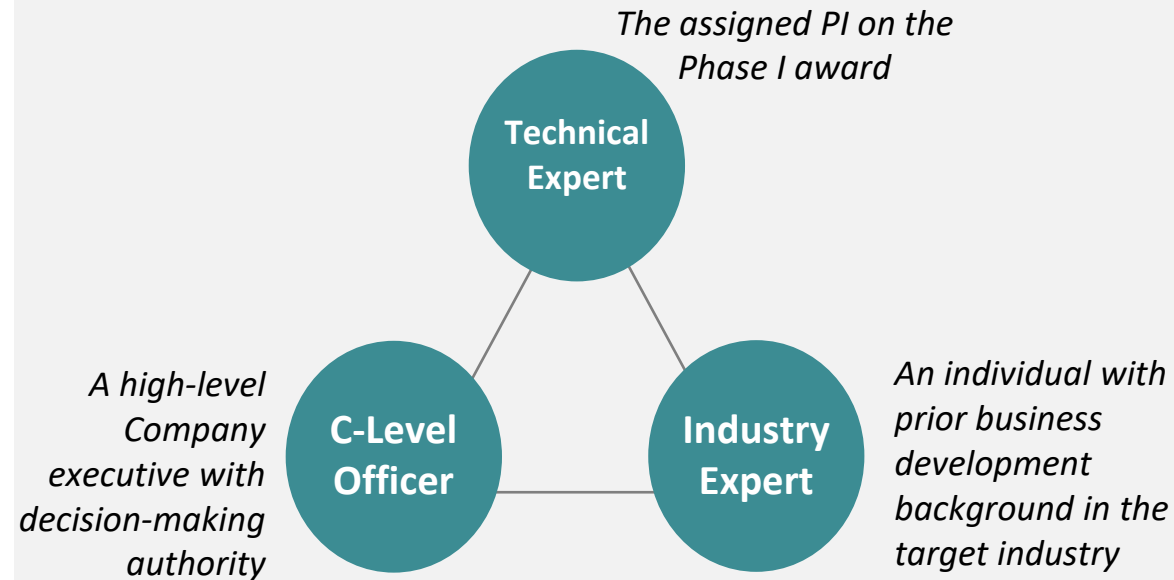

REQUIREMENT

Eligible SBIR/STTR grantees are required to assemble **3-member teams** that will work collaboratively to complete the activities and assignments required by the I-Corps curriculum.

ELIGIBILITY

- To be eligible, a company must have an ACTIVE Phase I SBIR or STTR grant from one of the 24 participating NIH and CDC Institutes and Centers
The predicate Phase I grant **must** have project and budget timelines that are active from application date through end of I-Corps course syllabus.

THE I-CORPS TEAM

Who can be on the team?

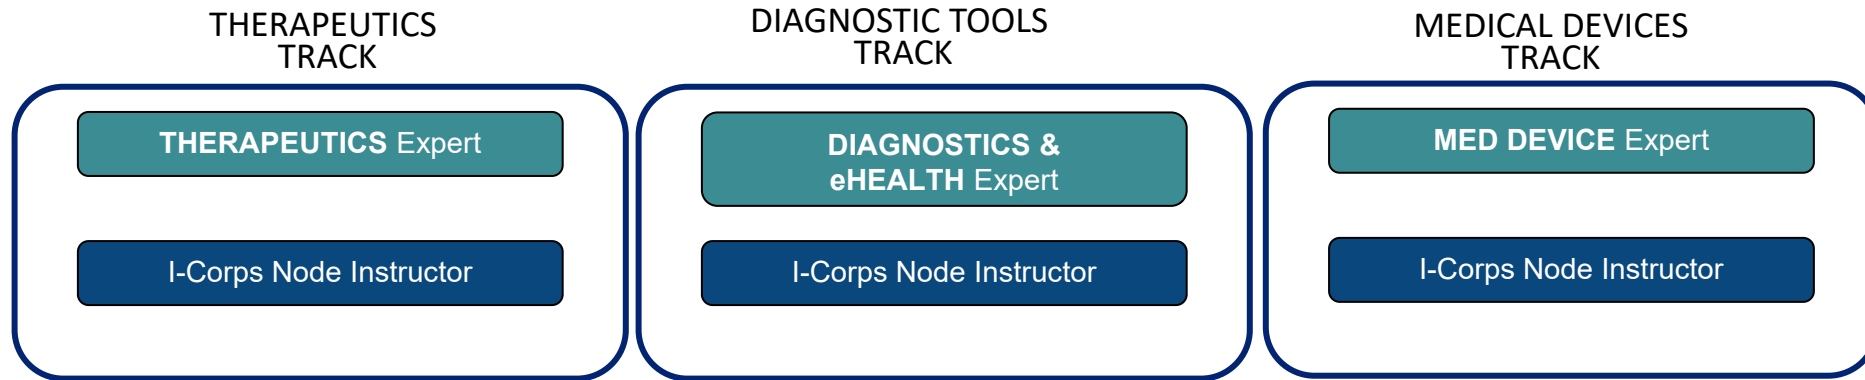

Is there flexibility in how the three required roles are filled on the I-Corps team?

Yes. For example, if the PD/PI (as listed in eRA) is also the CEO, then the PD/PI can be assigned the I-Corps role of "C-Level" and you can select a different senior level scientist to serve in the "TL" role.

In this example, consider Sue Scientist is the PD/PI (in eRA) on the predicate Phase I award; Sue is also the CEO of SBC, Inc. and will carry the role of C-Level on the I-Corps team. Sue recruits Robin Researcher, also of SBC, Inc., to be listed in eRA as a Co-Investigator and carry the role of Technical Lead on the I-Corps team. Finally, Evan Expert, an external advisor from Serial Entrepreneur, Inc. is listed in eRA as a Consultant to carry the role of Industry Expert on the I-Corps team.

Senior/Key Personnel	Organization	Role Category (in eRA)	I-Corps Team Role
Sue Scientist	SBC, Inc.	PD/PI	C-Level Executive
Robin Researcher	SBC, Inc.	Co-Investigator	Technical Lead/Expert
Evan Expert	Serial Entrepreneur, Inc.	Consultant	Industry Expert

Program Format

COURSE FORMAT

- 3-Day Kick-off Event
- 6 Weekly web classes
- 2-Day Lessons Learned

LIFE SCIENCE TRACKS

- Therapeutics
- Diagnostics/eHealth
- Medical Devices

- Teams are distributed among track “rooms”

TEACHING TEAM

- I-Corps Node Instructors
- Industry Domain Experts

- Curriculum tailored to life sciences

Award Budget

The selected project teams receive grant supplement funding (up to \$55,000 total) to support customer discovery related activities –

- Course registration - **\$22000** (mandatory)
- Allowable expenses related to conducting customer discovery –
 - Personnel time for team members (as appropriate)
 - Travel – Conferences, trade shows, meetings within the cohort dates
 - Membership to disease specific foundations/societies
 - License fees for virtual meeting platforms
 - Indirect Fees
- Non-appropriate budget activities – purchase of equipment (computers), marketing surveys and plans, IP filings etc.

Program Dates

Returning to in person meetings in 2024

	<i>Cohort 1</i>	<i>Cohort 2</i>

<i>Phone Interview</i>	January 9 - 10, 2024	March 11-12, 2024
<i>Course Kick-off</i>	March 4 - 7, 2024 Houston, Tx	May 6-9, 2024 San Diego CA
<i>Virtual Webinars</i>	March 13, 2024 March 20, 2024 March 27, 2024 April 3, 2024 April 10, 2024 April 17, 2024	May 15, 2024 May 22, 2024 May 29, 2024 June 5, 2024 June 12, 2024 June 18, 2024
<i>Course Close-out, Bethesda MD</i>	April 22-23, 2024	June 24-25, 2024
<i>Cohort Size</i>	24 Teams	24 Teams

NIH Expectations from the Participants

- Each team member commits 20-25 hour/week for the duration of 8 weeks for I-Corps related activities
- Fully participate in 3.5 days kick-off, 6 Wednesday webinars and 2-day close-out/finale (fully virtual)
- Conduct at least 100 customer discovery interviews
- Prepare and present a 2-minute video and a 10-minute lessons-learned presentation during the finale.

I-CORPS Testimonial

Steve Waddell, MBA, PMP

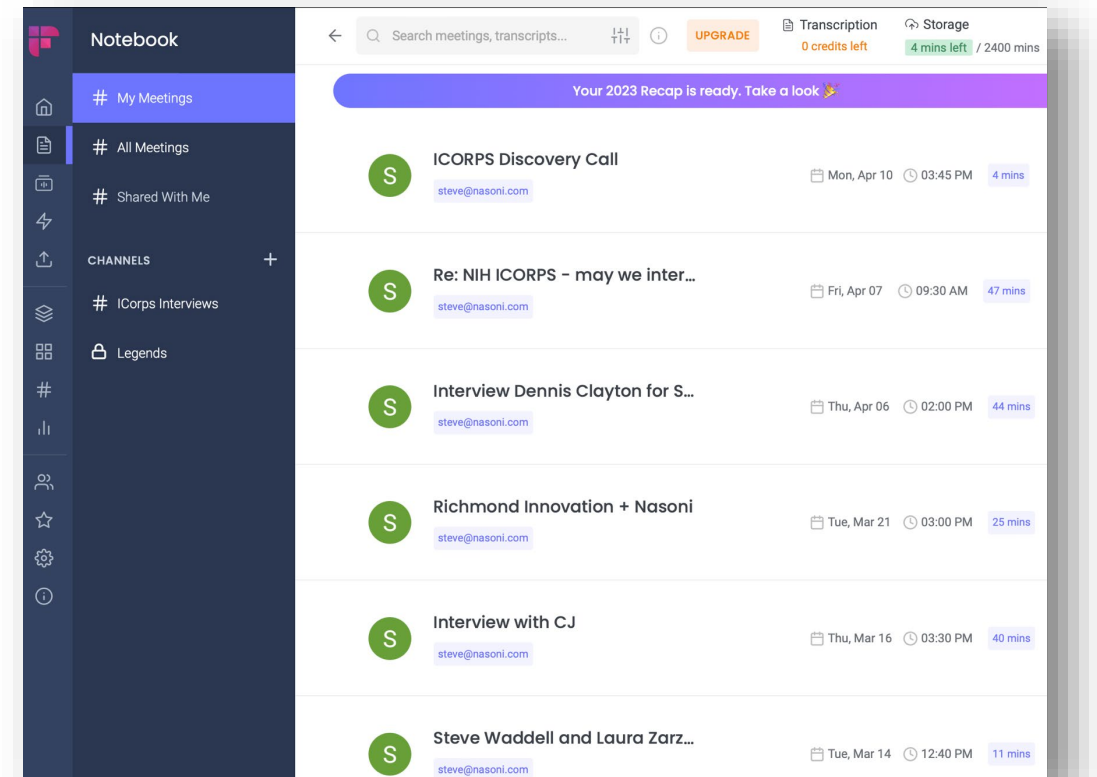

President & CEO

Nasoni

I-Corps at NIH – 2023

Commitment to Interviewing

- Challenging to conduct 100+ interviews in 8 weeks
- Requires full dedication!
- Yields extremely valuable information
- We found [Fireflies Notetaker](#) app to be very helpful

Embracing Customer Pivots

- Be open to changing customer focus
- Learning is key
- Adaptability is crucial

Expect the Unexpected

- Be ready for spontaneous opportunities
- Adapt quickly to new situations
- Valuable experiences often come unplanned

Attending the Ability One conference – had to fly to CA from VA the next day!

Utilizing BMC Software

- Access to business model canvas tools
- Weekly validation of BMC hypotheses
- Free usage for 6 months post-program

The screenshot displays a Business Model Canvas (BMC) software interface with the following sections:

- KEY PARTNERS (8):** SparkPD will be critical to achieving VE & DFM goals. Manufacturing partner. Certified Aging in Place Professionals (VGM Live At Home, NAHB Director of Professionals). Faucet Company Scale Partner - Brady Corp, Chicago Faucets, Symmons, etc. Potent, strategic partners in assist. tech=Invacare.
- KEY ACTIVITIES (6):** DFM and VE will reduce cost making Access H2O more affordable. Hardware redesign (VE/DFM) and Phase II Manufacturing Ready System.
- KEY RESOURCES (7):** Marketing professionals. Supply chain manager. Call center/customer service employees. Grant Portfolio.
- VALUE PROPOSITIONS (5):** Independent Access to Water. (B2C/B) AH2O will enable M-I individuals to engage in bath faucet-related ADLs more independently. (B2C/B) AH2O will greatly improve individual's hydration and help overcome hydration challenges. (B2B/C) Greater independence positively impacts health and wellbeing.
- CUSTOMER RELATIONSHIPS (8):** (B2C) Education through conferences/events, distributor and partner websites. (B2C) Partnerships/deals/education with organizations that serve end users, e.g. ADA architects.
- CHANNELS (7):** Word of mouth. Distribution partnerships with healthcare equipment suppliers and distributors.
- CUSTOMER SEGMENTS (5):** Senior citizens living in senior communities or aging in place. Medicaid-independent, motor impaired people and households. Motor-impaired veterans. Early tech adopters. Medicaid-dependent motor-impaired individuals.
- COST STRUCTURE (5):** Sales - Cost of Sales most important factor. Product design and manufacturing. Customer support services.
- REVENUE STREAMS (7):** Direct sales to consumers via website. Indirect sales to consumers via retailers. Indirect sales to businesses and consumers via medical supply distributors.
- RISKIEST ASSUMPTIONS (2):** Supply chain manager/ment. Nasoni can get a yield close to 99%.

Maximizing Office Hours

- Take Full Advantage of Office Hours!!!
- Engage with Different Advisors: Explore Varied Perspectives for Broader Understanding
 - Discover Unique Insights from Each Expert's Specialization

Unexpected Insights from Customer Interviews

- Interviews can reveal surprising needs
- Example: Smart sensor faucet aiding a quadriplegic rapper for “warm water”
- Be open to unforeseen applications
- Customer excitement can lead to unique contributions (e.g., a rap song!)

We're ecstatic!
Selected for ICORPS. We had been planning for this for more than 6 weeks, creating a website to help with interviews and a CRM
